

Business Intelligence from your Mobile Communications

Proteus® Mobile Reporting from CTI Group provides enterprises with detailed analysis of the cost and usage patterns of their mobile handsets and 3G devices.

Key Business Features

- Unified fixed line and mobile handset reporting for a complete telecoms picture.
- All existing Proteus® reports and functions are supported thus your initial investment into Proteus is enhanced.
- Several mobile specific reports are available including highest usage reports, high cost reports, reporting against carrier allowances, roaming reports and carrier cost summary reports.
- Costs can be allocated to cost centers with Proteus® Enterprise alongside fixed line costs.
- Handsets can be associated with people and departments.
- An import tool provides easy import of electronic invoices.
- Compatible with Proteus 6.3

Application Benefits

- Detailed costs analysis of voice, messaging (SMS and MMS) and data usage.
- Identify high cost users and evaluate alternative plans.
- Run cost comparisons between carrier tariffs.
- Identify high roaming costs and investigate alternative solutions for frequently visited countries.
- Input your current voice, data and messaging allowances and report on handsets that consistently exceed the limits.
- Identify unused mobiles or mobiles with very low usage.
- Benefit from a consolidated fixed-line and mobile reporting and analysis tool - Proteus Enterprise.
