

The Beating Heart of your Business

If you're looking to improve the vital signs of your contact centre, an Enghouse Contact Centre solution for Skype for Business could be the right prescription.

The contact centre is more than just the beating heart of an organisation - it's also its eyes, ears and voice. Ensuring all these functions are in their best possible shape is essential to keep the rest of your business operating effectively.

The Enghouse Contact Centre solution for Sfb, makes use of Microsoft licenses that most businesses already have, to provide a powerful, holistic solution to your contact centre and communication challenges. Most UK organisations are already paying for Skype licenses, so why not use them to add contact centre functionality across your whole business or to specific business units or teams.
