What role does your contact centre play in your company?

- Our contact centre is the main channel to provide personal advice to customers and is central to driving customer loyalty.
- It mainly provides after-sales service. However, we are receiving a growing number of pre-sales questions from customers looking for information and advice.
- It is primarily the contact point for after-sales questions.

How are contact volumes changing in your organisation?

- Our contact centre is increasingly overloaded with more and more enquiries. Customers often have to wait to get an answer.
- The number of enquiries is increasing but volumes are still manageable.
- We can manage the volume of customer service enquiries we receive.

Which channel is the biggest focus for your customer service?

- The phone remains the main channel. However, we intend to offer other options such as chat.
- Mainly the phone. We're not yet fully convinced of the benefits of adding other channels such as chat and have concerns about implementing new channels.
- Just the phone. This should be enough for the foreseeable future.

How well do your agents know a customer's history?

- We try to make the entire customer history available to our agents, but we experience limitations due to different channels, systems and datasets.
- The agents sometimes have insight, but usually have to ask the customer.
- Not well at all. Agents do not have any insight into the customer's history.

How many customer service channels do you offer?

- We provide our customers with a range of relevant customer service channels. However, we find managing all these channels increasingly challenging.
- We would like to offer our customers more contact options but have not implemented them yet.
- We limit ourselves to the essentials. For example, telephone, contact form and email.
